Mehdi (Nima) Soltanian

Front-End Engineer — React.js • Next.js • TypeScript

Shiraz, Iran • +98 933 925 0661 • nimaso8228@gmail.com • linkedin.com/in/nima-soltanian • github.com/Nima-sltn

PROFESSIONAL SUMMARY

Product-focused Front-End Engineer specializing in **React.js, Next.js (App Router), and TypeScript** with proven experience architecting multi-application ecosystems across **FinTech, Agentic AI, Tourism, E-Commerce, and Industrial** sectors. Skilled in building action-executing AI interfaces, high-traffic trading platforms serving **millions of users**, interactive geospatial maps, and open-source developer CLI tooling.

TECHNICAL SKILLS

Core Frontend	**React.js**, **Next.js** (App Router, SSR/SSG/ISR), **TypeScript**, JavaScript (ES6+), HTML5, CSS3
State, Data & Forms	**TanStack Query** (React Query), **Zustand**, **TanStack Router**, React Router, React Hook Form, **Zod**, Axios, REST APIs
UI, AI & Interactive	**Tailwind CSS**, **Shadcn/UI**, MUI, Ant Design, **Streaming & Agentic AI UI**, Interactive Geospatial Maps, i18n (RTL/LTR)
Testing & Architecture	**Vitest**, React Testing Library, Progressive Web Apps (**PWA**), Multi-Panel Architecture, **Node.js CLI**, Vite, Webpack, Git

PROFESSIONAL EXPERIENCE

Front-End Developer | **Vira (Jasmin Tourism Ecosystem)** — **Full-Time • Jan 2026 – Present**

- Architected a **5-application tourism ecosystem** for Jasmin (Core Web App, Admin Panel, Provider Panel, SEO Landing Site, and an Instagram-style Social Blog Platform) using **Next.js, React, TypeScript, TanStack Router, and Tailwind CSS**.
- Engineered an **action-driven Agentic AI Chatbot Assistant** capable of executing direct in-app workflows, including discovering nearby doctors, topping up digital wallets, and executing peer-to-peer wallet transfers.
- Built an **interactive multi-option geospatial map system** alongside complex modules for multi-currency wallets, currency exchange, medical appointment scheduling, and ticket reservations.
- Developed an **OCR-based passport scanning KYC onboarding flow** with **Zod** schema validation, 3-language i18n architecture (RTL/LTR), and unified dark/light theming via **Shadcn/UI**.

Front-End Developer | **NewVita (Online Pharmacy Platform)** — **Freelance Contract • Nov 2025 – Jan 2026**

- Delivered a **dual-application online pharmacy ecosystem** (Customer E-Commerce Storefront and Role-Based Admin Dashboard) using **Next.js, TypeScript, TanStack Query, Zustand, and Tailwind CSS**.
- Built executive admin modules for **real-time sales analytics**, granular user permission management (RBAC), dynamic pricing controls, and multi-parameter product filtering with **optimistic UI updates**.

PROFESSIONAL EXPERIENCE (CONTINUED)

Front-End Developer | **TechChain — Sepas Holding (Opal AI Platform)** **Full-Time • Apr 2025 – Dec 2025**

- Spearheaded the ground-up frontend architecture of **Opal**, a multi-modal AI content generation and social media intelligence platform built with **Next.js 15, TypeScript, and Tailwind CSS**.
- Engineered specialized **AI generation studios** with multi-tier subcategory workflows for automated image creation, video generation, and scenario/script writing, paired with an interactive AI assistant chatbot.
- Built an **Instagram account analytics and brand-building suite** that evaluates profile metrics to generate tailored post/story ideas, automated content calendars, and brand identity workflows.

Front-End Developer | **DrillAi — Enterprise Oil & Gas AI Intelligence Platform** **Freelance Contract • 2025**

- Architected a specialized **enterprise AI chatbot and technical data assistant** for oil and gas construction companies using **React, Next.js, and TypeScript**.
- Engineered **real-time streaming AI interfaces** for querying live oil well telemetry, geological/drilling data, and field construction specifications, complete with secure authentication and rich data rendering.

Front-End Developer | **Melli Gold** **Full-Time • Sep 2024 – Mar 2025**

- Scaled mission-critical frontend features for a **high-traffic FinTech platform serving millions of users** with real-time gold trading, live price feeds, automated transaction calculators, and interactive daily/weekly/monthly market charts.
- Engineered an installable **Progressive Web App (PWA)** from scratch and led the UI/UX modernization of core platform pages to improve mobile responsiveness and accessibility.

OPEN-SOURCE & SELECTED PROJECTS

github.com/Nima-sltn

next-route-graph | **Creator & Open-Source Maintainer** (TypeScript, Node.js CLI) github.com/Nima-sltn

- Engineered and published a lightweight open-source CLI tool for inspecting, searching, and visualizing **Next.js App Router** structures, supporting dynamic routes, catch-all segments, route groups, parallel/intercepting routes, and JSON output.

Role-Based Job Placement Marketplace | **Front-End Developer** (React, TypeScript, Tailwind CSS) github.com/Nima-sltn

- Built a multi-role job marketplace featuring dedicated **Admin, Employer, and Freelancer dashboards**, real-time in-app messaging, and end-to-end candidate application tracking pipelines.

EDUCATION & INTERNATIONAL HONORS

7th Place Globally — TechOlympics 2025 | **International Engineering Competition** **Global Finalist • 2025**

- Ranked **7th worldwide** among international competitors from **~60 countries** across online qualification rounds and on-site final engineering stages.

B.Sc. in Computer Science | **Apadana Institute of Higher Education** **Oct 2023 – Present**
